In company with neighbor King I took a trip to Anderson last Saturday, and I was delighted to see so many fields of good corn and peas, and, too, I see nearly every one on the road has adopted this "great-adviser's" plan, and has a few acres of late corn—planted after wheat or oats was harvested—and it is good and would have been better if we had have that plenty of rain. 'Squire Fewell' made his living farming, because he advised planting corn all the year. Well, I didn't mean to say for people to plant corn all the year, but if he will come down here I can show him good fields of corn, which have been planted as late as the last of June and the first of July. You see, my Virginia friend, we have the best climate, the best country, and some of the best people and some of the biggest fools to be found in these United States. But notwithstanding all the ups and downs, and the defeat of our neighbor, Mr. Pack, I am getting more hopeful of better times every day. Now, if we (that is, Mr. Cleveland and myself,) had have gone and signed the Seigniorage Coinage Bill, and not said anything to Mr. Wilson about the tariff, and been careless and unconcerned-like, and then signed the Senate Tariff bill, which neither one of us could approve, for it was not what we had could approve, for it was not what we had recommended or suggested, nor what the people wanted, you see this prospect for improvement in business would not have loomed up so quick—in fact, it would not have come at all. So I hope the people will be patient and bear with us, and, my word for it, we will have the greatest boom in business in two years that we have had in years, and, mark it down, Mr. Cleveland will be the most popular man in America at the end of his administration, for he has the brain and the honest and true to the people. What I wanted to say: I do wish they would come down this way and appoint some overseers and have our roads worked out overseers and have our roads worked out before winter. I don't mean our road, for we volunteered and worked it out last spring, and are going to do the same thing again this fall, but there are other roads in this section that havn't been worked in nearly two years. So come on and spend a day or two with us and make your two dollars a day, and if you don't need it you can give it to the Church or some other good cause.

Mr. Fennell is all smiles—it's a girl.

The County Sabbath School Convention of the Methodist Church was held here Thursday and Friday. The Quarterly Conference, of this place, was held immediately after the ediaprining of the Convention diately after the adjourning of the Convention. The Presiding Elder, Rev. J. B. Campbell, was present.
It is told on one of the clerks in town that when his girl passes along the street he always comes to the door. But when

she is with her parents he does not rush to the door, but peeps through the window at her.

Here is one on a new clerk too good to keep, so we must tell it. He passes by the graveyard every night, and as he goes by, he does not always feel exactly right. He tried very hard to get one of his friends a position so this friend would accompany him home every night, but failed in his attempt. This new cierk says he is "going around the road on a dark night."

A New Enterprise.

Mr. O. Geisberg is advertising as Real Estate Agent in this issue, to which we The selling of homes on the installment plan is quite a new feature in Anderson, though by no means new in America. He has been the means of enabling thousands of toiling Americans all over the length and breadth of our country to se-cure homes through the same means, and cure homes through the same means, and as far as we know, succeeded wherever the movement has been inaugurated and properly managed. That such an enterprise is very much needed here is beyond dispute, for it not only encourages frugality in a community, but brings mankind to a higher pitch of civilization and increases the number of good and lawabiding citizens. When a person secures abiding citizens. When a person secures a home through years of toll and saving, that home becomes the most sacred spot on earth to the one who so acquired it, hence we hail with joy the movement, wishing

we hall with joy the movement, wishing the promoters grand success in their worthy undertaking.

With the experience Mr. Geisberg has had in the Real Estate business all over the United States, we see no reason why he should not succeed here. In our opinion the season is ripe and highly favorable for such a movement
